STATISTICAL ABSTRACT OF HIGHER EDUCATION IN NORTH CAROLINA, 1967-68

RESEARCH REPORT 2-68 (APRIL 1968)
NORTH CAROLINA BOARD OF HIGHER EDUCATION
RALEIGH, NORTH CAROLINA

North Carolina Board of Higher Education

1307 GLENWOOD AVENUE

P. O. BOX 10887

RALEIGH, NORTH CAROLINA 27605

MEMBERS:

WATTS HILL, JR., *Chairman*
Durham, 1971 (Member-at-Large)

LINDSAY C. WARREN, JR., *Vice-Chairman*
Goldsboro, 1973 (Member-at-Large)

MRS. HARRY P. HORTON, *Secretary*
Pittsboro, 1973 (Member-at-Large)

S. E. DUNCAN
Salisbury, 1973 (Member-at-Large)

GORDON H. GREENWOOD
Black Mountain, 1969 (Member-at-Large)

W. C. HARRIS, JR.
Raleigh, 1969 (Trustee, University of North Carolina)

ADDISON HEWLETT, JR.
Wilmington, 1969 (Trustee, Wilmington College)

J. P. HUSKINS
Statesville, 1971 (Member-at-Large)

J. PAUL LUCAS
Charlotte, 1971 (Member-at-Large)

HUBERT M. POTEAT, JR., M.D.
Smithfield, 1969 (Member-at-Large)

JOHN A. PRITCHETT
Windsor, 1969 (Vice Chairman, State Board of Education)

WILLIAM B. RANKIN
Lincolnton, 1969 (Trustee, Appalachian State University)

EMIL ROSENTHAL
Goldsboro, 1969 (Trustee, Fayetteville State College)

CLARENCE C. WATKINS
Reidsville, 1969 (Trustee, North Carolina College at Durham)

MRS. GEORGE D. WILSON
Fayetteville, 1969 (Trustee, University of North Carolina)

ADMINISTRATIVE STAFF:

HOWARD R. BOOZER
Director of Higher Education

CAMERON P. WEST
Associate Director

JOHN F. COREY
Assistant Director

STAN C. BROADWAY
Administrator, State Education Assistance Authority

EUN SUL LEE
Director, Statistical Services

THOMAS K. NORRIS
Budget Officer

ALLEN W. RODEHEFFER
Coordinator, Community Service and Continuing Education Programs

ERRATA

In Table V on page 11 the total credit hours registered for Barber-Scotia College should read 7,036 rather than 70,366.

In Table LIII on page 107 the "Minimum Total Costs for In-State Students" in the last three columns are provided by the institutions. In some instances, the totals include incidental expenses not reported elsewhere in the table; in other cases only minimum food charges are reflected. Therefore, the minimum total costs listed in the last three columns are not necessarily the sums of the costs itemized in the other columns.

STATISTICAL ABSTRACT OF HIGHER EDUCATION

IN NORTH CAROLINA, 1967-68

April 1968

North Carolina Board of Higher Education

SUMMARY HIGHLIGHTS

1. CURRENT ENROLLMENT - In Fall 1967 a total of 120,558 students were enrolled in North Carolina colleges and universities. Of this total 73,708 students or 61.1 percent were enrolled in public institutions and 46,850 or 38.9 percent in private institutions.

2. ENROLLMENT TRENDS - The total 1967 college enrollment increased by 6.9 percent over the 1966 figure. While the enrollment in the public institutions increased by 9.9 percent, the enrollment in the private institutions increased by 2.4 percent. The rate of increase in college enrollment has slackened since 1965.

3. TRANSFERS AND WITHDRAWALS - Approximately 5,300 students transferred to North Carolina senior institutions, public and private, in Fall 1967. Approximately two-thirds of the student transfers were among senior institutions. The number of transfer students from community colleges to senior colleges in North Carolina more than doubled over the Fall 1966 figure.

4. DEGREES CONFERRED - A total of 12,859 bachelor's degrees, 663 first professional degrees, 2,579 master's degrees, and 438 doctor's degrees were granted by North Carolina colleges and universities during the year ending June 30, 1967.

5. FACULTY AND STAFF - More than 8,000 professional and over 10,000 non-professional personnel were employed at public senior colleges and universities in North Carolina in Fall 1967. More than 4,000 professional personnel were assigned to resident instruction and departmental and organized research in public senior institutions.

6. LIBRARY RESOURCES - The number of bound volumes per full-time equivalent student at private senior institutions (101.5) is nearly twice that at public senior institutions (56.4)

7. EXTENSION ACTIVITIES - A total of 35,964 professional man-days were devoted to public service by public senior institutions during the year ending June 30, 1967.

8. STUDENT COSTS - The minimum total cost for North Carolina students to attend public senior institutions ranges from $600 to $1,458. The comparable cost to attend private senior institutions ranges from $999 to about $2,500.

9. ADMISSIONS AND FINANCIAL AID - The median Scholastic Aptitude Test score of the 1967 entering freshmen at public senior institutions was 460 on the verbal test and 495 on the mathematical test. Total student financial aid for all purposes came to approximately $18.3 million in public senior institutions in the year ending June 30, 1967. As of that date loans to 30,692 students in the amount of $13,541,189 were outstanding.

PREFACE

Accurate information is basic to the planning and coordination of a sound and economical statewide system of higher education. This report is the most comprehensive compilation of statistical data ever assembled on higher education in North Carolina. Information is provided in detail in nine broad areas ranging from enrollments to student costs. This information should be useful to planners and decision-makers in the colleges and universities, State agencies and the General Assembly, and to other interested persons and groups.

This report is largely the result of the compilation and organization of statistical data provided by each institution to the Board of Higher Education or through the Higher Education General Information Survey to the United States Office of Education. Acknowledgement is extended to the institutions of higher education in North Carolina, public and private, which cooperated in providing statistical materials.

Acknowledgement is made also to staff members of the Board of Higher Education for their analyses of data that make this publication possible. In particular, special mention is due Eun Sul Lee, the Board's director of statistical services, under whose direction the report was prepared.

Howard R. Boozer
Director of Higher Education

SECTION I

CURRENT ENROLLMENT

This section presents statistics on the number and detailed characteristics of the students enrolled in North Carolina colleges and universities in 1967. In Fall 1967 a total of 120,558 students were enrolled in 16 public senior colleges and universities, 12 public two-year community colleges, 28 private senior colleges and universities, 14 private junior colleges, one theological seminary and three Bible colleges. Of this total 73,708 students or 61.1 percent were enrolled in public institutions and 46,850 or 38.9 percent in private institutions.

Some general characteristics of college enrollment by public and private institutions are illustrated in Figures 2 and 3, and more information is summarized in Table I. Detailed information by institution is presented in Tables II, III and IV. Full-time equivalent enrollment which accounts for part-time students is shown by institution in Table V.

The geographic origin of undergraduate students by type of institution is presented in Tables VI and VII. Further detailed information about the origin of undergraduate students at public senior institutions is given in Tables VIII and IX. The geographic origin is listed by county for North Carolina students and by state for out-of-state students.

Graduate and first professional enrollment is presented by sex and full-time and part-time status in Table X. Information about students enrolled for advanced degrees by field of study is shown in Tables XI and XII. These two detailed tables are especially useful in assessing the expected advanced degree production in various fields within a year.

Table XIII shows summer session enrollment by institution and level. Table XIV presents enrollment by type of housing at public senior institutions. It reveals that about one-half of students enrolled in public senior institutions live in dormitories, about 25 percent in privately owned housing, 21 percent in their own homes, 3 percent in fraternity or sorority houses, and the rest in married student housing or other college owned housing. Table XV shows foreign student enrollment by type of institution in Fall 1967. A detailed report on foreign students was published in Higher Education in North Carolina (Vol. III, No. 4, February 16, 1968). Table XVI presents information concerning the number of institutions attended predominantly by white students and by Negro students with their enrollment figures.

* Terminal occupational studies programs not chiefly creditable toward a bachelor's degree.

** 5th-Year includes a student who is in a program requiring five years of study for a bachelor's degree (e.g., architecture, engineering).

*** First Professional includes a student who is in a professional school or program (law, medicine, dentistry, theology, etc.) which requires at least two or more academic years of previous college work for entrance.

a/ The entire community college system enrolls 10,596 students in two-year technical programs and 5,483 students in one-year vocational programs in addition to the college parallel students included in the table. Traditionally these technical and vocational enrollments in the community college system were not included in the total college enrollment statistics in North Carolina. If these technical and vocational students are added, the total college enrollment changes from 120,558 to 136,637. However the total of 120,558 is the comparable figure to past statistics.

SECTION II

ENROLLMENT TRENDS

This section presents some data concerning enrollment trends At the beginning of this century North Carolina had only about 5,000 college students. The number of students steadily increased since then and reached 32,000 in 1940 and 47,000 in 1947. The increase was interrupted during the four-year period between 1947 and 1951. Since 1951 there has been an extraordinary upsurge in college enrollment. In Fall 1967 it reached 120,558, which is about three times the enrollment in 1951.

This upsurge in college enrollment is due in part to the high birth rates following World War II. The rate of increase in college enrollment reached the highest point in 1965 both in public and private institutions. However, it is to be noted that the rate of increase has slackened since 1965. The rate of increase was 6.9 percent in 1967, while it was 12.2 percent in 1965.

Table XVII shows the annual percentage increase in the number of students by institution since 1963. Detailed trends are presented in Table XVIII by in-state and out-of-state residence status, in Table XIX by level of instruction. Trends in geographic origin of undergraduate students are shown in Tables XX and XXI. In Table XXII is shown the trend in foreign student enrollment. Finally, desegregation trends by type of institution from 1963 to 1967 are shown in Table XXIII. A detailed report on desegregation trends was published in Higher Education in North Carolina (Vol. III, No. 3, February 2, 1968).

SECTION III

TRANSFERS AND WITHDRAWALS

This section presents statistics concerning undergraduate transfers and withdrawals. The information presented in this section concerns students transferred within the state and transfers from other states to North Carolina institutions. Transfers from North Carolina institutions to other states are not included.

In Table XXIV is shown the number of transfer students from one type of institution to another and within each type of institution as well as transfers from other states in Fall 1967. This table also shows the breakdown by sex of these transfer students. Table XXV shows the number of transfer students from one senior institution to another. In this table one can compare the number of in-transfers and out-transfers from a particular senior institution to another. Table XXVI is a matrix showing the number of transfers from two-year colleges to senior institutions by institutions in Fall 1967. The comparable information presented in Table XXVI for the Fall of 1966 is presented in Table XXVII. Increasing numbers of students are transferring from two-year colleges to senior institutions. A detailed report on this subject was published in Higher Education in North Carolina (Vol. III, No. 6, March 1, 1968).

Table XXVIII pertains to the undergraduate withdrawals from public senior institutions during the academic year 1966-1967. It should be noted that some institutions have semester systems, while others have quarter systems, and some reported entering freshmen, while others reported entire freshmen for the Fall term. Therefore, any comparison calls for particular caution.

a/ Withdrew during a term, or did not return the following term for reasons other than graduation.
* Entering freshmen.
** Two-term registration included in total.
*** Does not include those who did not return the following term.

SECTION IV

DEGREES CONFERRED

This section presents statistics pertaining to earned degrees conferred by North Carolina senior colleges and universities during the 12-month period ending June 30, 1967. Information presented in this section concerns only bachelor's or higher degrees. Degrees or certificates awarded upon completion of less than four years of work beyond high school are not included.

Degrees tabulated by types of degrees for public senior institutions are presented in Table XXIX by institution and in Table XXX by field of study. The same information for private senior institutions is given in Tables XXXI and XXXII. Comparison of Tables XXX and XXXII reveals that the private institutions did not produce any degrees in some areas of study such as agriculture, architecture, computer science, geography, library science, textiles, and radio, television and motion pictures. However, the private institutions conferred relatively more degrees in philosophy and religion at all degree levels, and in biological and social sciences at the bachelor's level. This comparision at the bachelor's level is made in Figure 7.

More detailed information by sex, field of study and institution is presented in Table XXXIII for bachelor's degrees, in Table XXXIV for first professional degrees, and in Table XXXV for master's and doctor's degrees. A detailed report on this subject was published in Higher Education in North Carolina (Vol. III, No. 5, February 23, 1968).

Figure 7. Bachelor's Degrees Conferred By North Carolina Public And Private Colleges And Universities By Field Of Study, 1966-67

SECTION V

FACULTY AND STAFF

This section presents statistics on faculty and staff in North Carolina senior colleges and universities. Table XXXVI shows the number of employed personnel by primary function and status of employees in Fall 1967. In this table, all professional and non-professional employees are classified by full-time and part-time status under the six functional categories: (1) resident instruction and departmental research, (2) organized research, (3) library, (4) extension and public services, (5) auxiliary enterprises and schools operated by institutions, and (6) all other employees.

In subsequent tables, faculty refers to the professional personnel in the first two functional categories (resident instruction and departmental and organized research) excluding academic deans. Academic rank of full-time faculty members is presented in Table XXXVII. The percent distributions of academic rank in public and private senior institutions are compared in Figure 8. In Table XXXVIII full-time faculty members are classified by sex and academic rank. Highest degrees held by full-time faculty members are shown in Table XXXIX by academic rank. The preparation of faculty members at public and private institutions are compared in Figure 9. Full-time faculty members by field of teaching and/or research are shown in Table XL for public senior institutions and in Table XLI for private senior institutions.

Information concerning retention and replacement of full-time faculty members between Fall 1966 and Fall 1967 is presented in Tables XLII, XLIII, and XLIV. Average salaries of full-time faculty members in public and private senior institutions are shown in Table XLV. Junior staff and faculty members without academic rank are not included in the computation of these averages.

Figure 8. Percent Distribution Of Full-Time Faculty Members By Academic Rank, Fall 1967

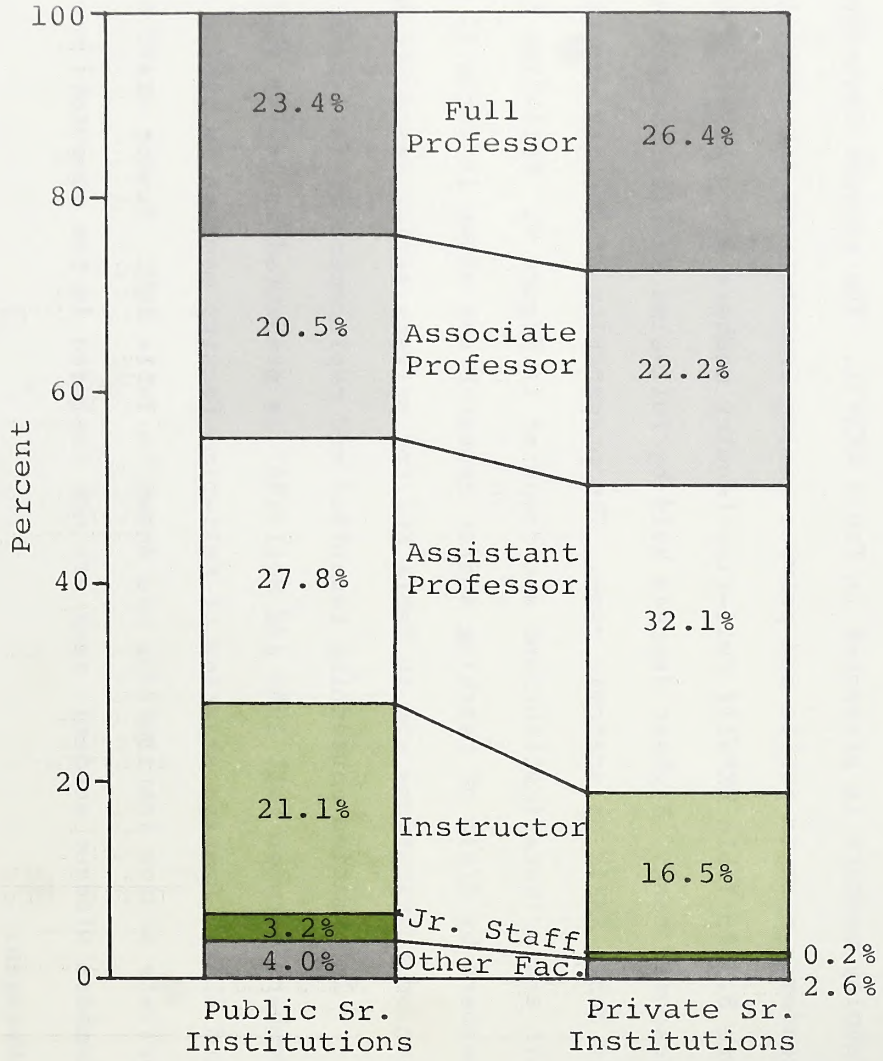

Figure 9. Percent Distribution Of Full-Time Faculty Members By Highest Degree Held, Fall 1967

Associate Professor	13,996	14,207	11,350 - 14,178	8,750 - 16,962
Assistant Professor	11,747	10,531	8,900 - 14,000	7,000 - 13,500
Instructor	9,185	7,851	6,000 - 9,359	6,750 - 11,000
ALL RANKS	14,224	13,067	6,000 - 14,583	7,375 - 17,460

* Excluding Academic Deans.
** Excluding North Carolina School of the Arts and Health Affairs at UNC-Chapel Hill.
*** Twenty-five of 28 private senior institutions are included. Not included are Campbell College, Johnson C. Smith University, and North Carolina Wesleyan College. Medical schools at Duke University and Wake Forest University are also not included.

SECTION VI

LIBRARY RESOURCES

This section provides information concerning college and university library resources, 1966-67. For statistical purposes, a bound volume is defined as a physical unit of any printed, typewritten, handwritten, mimeographed or processed work contained in one binding or portfolio, hardbound or paperbound, which has been classified, catalogued, or otherwise prepared for use. This includes bound periodical volumes and all nonperiodical Government documents.

The number of bound volumes, other resources and square feet floor space are shown in Table XLVI for public senior institutions, in Table XLVII for private senior institutions, and in Table XLVIII for private junior colleges. Also presented in these tables are the classification scheme used in each library and the number of branch libraries in the institution. The percentage distribution of these resources in major fields of study is presented in Table XLIX by institution.

In Table L are presented the number of bound volumes and the number of square feet of floor space per full-time equivalent student. The number of bound volumes per full-time equivalent student at private senior institutions (101.5) almost doubles the number held by public senior institutions (56.4). The library holdings and the floor space per full-time equivalent student are graphically illustrated in Figure 10.

Figure 10. Number of Bound Volumes of Library Resources and Square Feet Floor Space Per Full-Time Equivalent Student by Type of Institution, 1967

SECTION VII

EXTENSION ACTIVITIES

This section describes extension activities at public senior institutions. Since extension is not defined uniformly in all institutions, an attempt has been made to collect comparable statistics. After consultation with extension directors at public senior institutions, definitions of extension activities were developed. These definitions are listed in Appendix B. Classification and data base of extension activities are illustrated in Figure 11.

Extension activities are classified into three broad categories: credit extension reported in terms of number of students, non-credit extension reported in terms of number of registrations, and other public service activities reported in terms of professional man-days devoted.

Table LI shows the number of students taught in credit extension at seven public senior institutions during the 1966-67 year. Any comparison should take into consideration the difference of semester and quarter systems. The upper part of Table LII gives information on non-credit extension. Other public service activities which do not generally result in formally registered enrollment are shown at the bottom of Table LII. A total of 35,964 professional man-days were devoted to consultation, applied research and experimentation in direct support of extension, home demonstrations and other public services during the 1966-67 fiscal year, excluding certain activities listed at the bottom of Table LII.

SECTION VIII

STUDENT COSTS

This section provides information concerning basic student costs at all North Carolina colleges and universities for the 1967-68 academic year. The cost is figured on an annual basis for full-time students for the regular academic year excluding summer session(s). The figures represent data provided by institutions to the Board of Higher Education.

Table LIII shows undergraduate student costs by institution. The rate of tuition at all public institutions is considerably higher for out-of-state students than that charged to in-state students. With a few exceptions, private institutions charge the same rate of tuition to in-state and out-of-state students. In general, tuition is considerably higher at private institutions. There is a little variation between public and private institutions in room and board. The minimum total cost includes tuition, required fees, room and board for North Carolina resident students. In addition to the minimum cost, total costs of attending college should take into account the amounts to cover clothing, laundry, travel, recreation, and various other items. Ranges of these minimum costs at various types of institutions are graphically presented in Figure 12.

Table LIV provides similar information for graduate students at public and private institutions. It appears that the minimum total cost for graduate students does not substantially differ from that for undergraduate students presented in the previous table.

Figure 12. Ranges Of Minimum Educational Cost For In-State Undergraduate Students At North Carolina Colleges And Universities, 1967-68

SECTION IX

ADMISSIONS AND FINANCIAL AID

This section presents some information concerning the academic ability of entering freshmen as measured by tests and financial aid to the students at public senior institutions.

Table LV shows the average Scholastic Aptitude Test (SAT) scores of entering freshmen from 1962 to 1967. In this table is also shown the high school class rank of entering freshmen in Fall 1967. Institutional combined averages (verbal and math) of SAT scores ranged from 650 to 1,152 in Fall 1967. The frequency distribution of SAT scores by institutions is given in Table LVI. In general, mean scores are higher than median scores. This implies that more students had scores below the mean scores than those who had scores above the mean scores. The distribution of these scores for the entire entering freshmen at 16 public institutions is graphically presented in Figure 13. The mathematical test score is generally higher than the verbal test score.

Information concerning student financial aid at public senior institutions during the 12-month period ending June 30, 1967 is summarized in Table LVII. A total of 9,168 non-athletic scholarships (grants and awards) amounting to $5,900,522 and 2,526 teaching fellowships amounting to $4,945,963 were awarded. Student jobs totaled 12,807 in number and paid $3,341,545. Student loans to 11,624 students totaled $3,391,362. Total student financial aid for all purposes came to approximately $18.3 million in the year ending June 30, 1967. As of that date, loans to 30,692 students in the amount of $13,541,189 were outstanding.

Figure 13. Distribution Of SAT Scores Of Entering Freshmen At 16 Public Senior Institutions, Fall 1967

* Includes all students who were on the payroll at any time during the 12-month fiscal year, even for a few hours.
** Represents only those part-time jobs assigned by and/or reported to the Office of Student Aid.
*** Represents number of notes executed--not the number of borrowers.
****Includes 426 research assistantships.

APPENDICES

APPENDIX A

SOURCES OF DATA

The basic data used in this publication were provided by North Carolina colleges and universities in annual reporting forms of the Board of Higher Education (BHE) and Higher Education General Information Survey forms (HEGIS) of the United States Office of Education. The sources of basic data for each section are listed below:

SECTION I. CURRENT ENROLLMENT

BHE A-1 Comprehensive Report on Fall Enrollment, 1967
Part I. Resident-Credit Enrollment, Fall 1967
Part III. "Home Base" of Students, Fall 1967

BHE A-2 Student Housing Report as of October 1, 1967 (public senior institutions only)

HEGIS OE 2300-2.2 Enrollment in Third Trimester, Fourth Quarter, or Summer Session(s): 1967

HEGIS OE 2300-2.5 Students Enrolled for Advanced Degrees, Fall 1967.

SECTION II. ENROLLMENT TRENDS

Historical enrollment data accumulated at Board of Higher Education.

SECTION III. TRANSFERS AND WITHDRAWALS

BHE A-1 Part II. New Transfer Students

BHE A-9 Withdrawal and Retention of Undergraduate Students for Twelve-Month Period Ending June 30, 1967

SECTION IV. DEGREES CONFERRED

HEGIS OE 2300-2.1 Degrees and Other Formal Awards Conferred Between July 1, 1966 and June 30, 1967

SECTION V. FACULTY AND STAFF

HEGIS OE 2300-3 Employees in Institutions of Higher Education

SECTION VI. LIBRARY RESOURCES

HEGIS OE 2300-5.2 College and University Library Resources and Facilities

SECTION VII. EXTENSION ACTIVITIES

BHE A-8 Report on Extension Activities for Twelve-Month Period Ending June 30, 1967 (public senior institutions only)

SECTION VIII. STUDENT COSTS

BHE A-3 Student Tuition, Fees and Charges for the Academic Year 1967-1968

SECTION IX. ADMISSIONS AND FINANCIAL AID

BHE A-4 Admission Requirements and Practices as of October 1, 1967 (public senior institutions only)

BHE A-10 Student Financial Aid for Twelve-Month Period Ending June 30, 1967 (public senior institutions only)

APPENDIX B

DEFINITIONS OF TERMS

The definitions below are intended to facilitate the better understanding of information presented in this report. These are selected from the Board's reporting forms and the U.S. Office of Education's Higher Education General Information Survey forms. Some specific definitions appear as footnotes in appropriate tables.

1. ENROLLMENT, unless otherwise noted, refers to the head-count resident-credit enrollment. The resident-credit enrollment includes full-time and part-time students enrolled in courses basic to or creditable to a bachelor's or higher degree. This excludes students in extension, correspondence, adult education, audited courses, short courses, and enrolled for individual lessons only.

   Undergraduate includes students who have not completed a full four-year program or its equivalent and also students in a five-year bachelor's program. This classification includes students in junior and community colleges in programs transferable to four-year institutions.

   First Professional includes students who are in a professional school or program (law, medicine, dentistry, theology, etc.) which requires at least two or more academic years of previous college work for entrance.

   Graduate includes students who have attained at least one standard bachelor's degree or first professional degree and who are or might be a candidate for a master's or doctor's degree.

   Entering Freshmen include new students who have no college credits prior to the immediately previous summer sessions.

   Full-time Student includes students enrolled in credits equal to at least 75 percent of the normal full-time load. Normal full-time load is the number of credit hours required for graduation divided by the number of semesters or terms normally required for graduation.

   Part-time Student includes students enrolled for less than 75 percent of the normal full-time load.

   F.T.E. (Full-time Equivalent) of Part-time Students is the total number of credit hours of part-time students divided by the normal full-time load. Recognition should be made of variations in full-time load for different program levels.

   In-state Students are those whose legal residence, as determined at the institution, is in North Carolina.

Out-of-State Students are those whose legal residence, as determined at the institution, is in a state other than North Carolina or in a foreign country.

2. TRANSFER refers to transferring students to North Carolina institutions who have college credits from other institutions in a previous regular session(s). A former student transferring back to his original institution after attendance at another institution is not classified as a transfer.

3. DEGREES in this report refer to earned degrees conferred (not honorary). Specifically the following degrees are included:

Bachelor's Degree requires successful completion of at least four but not more than five years of academic work.

First Professional Degree signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance and which requires a total of at least six academic years of college work for completion. Examples of first professional degrees are the Bachelor of Laws (LL.B.), Doctor of Dental Surgery (D.D.S.), and Doctor of Medicine (M.D.) degrees.

Master's Degree is customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Doctor's Degree includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Doctor of Philosophy in any field.

4. FACULTY member refers to the professional personnel employed in colleges and universities who are primarily assigned to resident instruction and departmental or organized research. This does not include other professional personnel in library, auxiliary enterprises and public service activities.

5. EXTENSION ACTIVITY is defined in this report as any on- or off-campus instructional, research application, or public service activity sponsored by the reporting institution which is in addition to the regular on-campus instructional and research activities provided for the regularly enrolled, on-campus, degree candidate.

Credit Extension includes students in extension courses which are creditable toward a bachelor's or higher degree, an associate degree, a certificate, a diploma, or other formal award.

On-Campus Extension generally includes students enrolled in evening or weekend courses or special part-time students taking day classes offered by the extension division. When the extension division is not separated from the regular programs, this includes students who enrolled only in evening or weekend courses.

Off-Campus Extension includes students enrolled in off-campus extension courses, excluding military centers.

Military Centers: students enrolled in military centers.

Correspondence students are those taking one or more courses for credit toward a formal degree, by mail.

Television Courses: students taking television courses for credit.

Non-Credit Extension includes students in other than credit extension.

Adult Education includes adults enrolled in non-degree credit courses of regular length (or slightly shorter) which are designed for, or attended principally by, persons who have terminated their formal education.

Individual Lesson includes students enrolled for individual lessons only as in art, music, speech, etc.

Short Course refers to face-to-face, organized instruction in a specially designed course which lasts considerably less than the regular sessions but at least four separate days.

Other Types of Non-Credit Extension activities, if any, including courses offered by telecommunication media, conferences, and correspondence not for credit.

Other Extension Activities include assistance or consultation rendered, applied research and experimentation in direct support of extension, and other public services, which do not generally result in formally registered enrollment. These activities are reported in terms of professional man-days devoted.

STATE LIBRARY OF NORTH CAROLINA
3 3091 00767 5093

The purpose of the North Carolina Board of Higher Education "shall be . . . to plan and promote the development of a sound, vigorous, progressive, and coordinated system of higher education in the State of North Carolina."
